for deliverance from the high cost of living were given another setback this morning when it was announced that flour and new potatoes, two of . the most used necessities, were given another boost in prices.

Flour last week dropped in price several days in succession and it was reported that the prices were to drop still more, during this week. Quotations, however, went up \$1 the barrel today. Potatoes, supposed to be plentiful, have also taken another jump and there is no prospect of the tubers being much cheaper for the present at least, grocers say. Last week new potatoes sold at wholesale for \$3.50 to \$3.60 per bushel and today the price is up to \$3.75 per bushel, wholesale. This is the carload lot price, a local wholesale; produce dealer said this morning. Natural evaporation of new potatoes and the handling of them also costs the dealer 10 cents more per bushel,

Old potatoes are about all gone and what are left are not very good, but they are bringing high prices as usual.

Maxwell's Great Engine Cuts Your Gasoline Bill in Half

Thousands of Maxwell owners run their cars for \$6 to \$8 a month the Maxwell sets the pace for the world in upkeep economy.

Mechanical efficiency—that's the fixed, unswerving purpose of the Maxwell organization, from the President down to the youngest and newest apprentice.

The real motor car—the real Maxwell—is on the inside, to \$8. where you can't see it. Motor car value depends on the hidden machinery not on a glossy body, rich upholstery, handsome lamps,

The Maxwell Mechanically Right

The Maxwell Motor Company waited four years to make Starting on sound, scientific principles—the company spent four years in bringing its car to mechanical perfection.

The goal is won-undisputed facts prove it. For example, a Maxwell stock car-with an engine identically like your Maxwell will have-covered 22,022 miles in 44 days and nights, without the motor ever stopping.

That car traveled at 25 miles an hour, -made 22 miles per gallon of gasoline, -and scored a record never equalled by any other vehicle built by human hands.

Proof of Maxwell Economy

Thousands of witnesses spring up all over the land to testify -a veritable army of enthusiastic Mazwell owners who

-that they get upwards of thirty miles per gallon of gasoline-some even forty, -and that they run their cars at a monthly expense of \$6

Keeping the gums healthy and the mouth sweet is very important to health; more teeth are lost through the loosening of the tissue that holds the teeth in place than from decay.

Dental science to-day demands that a tooth paste must keep the gums healthy as well as clean the teeth.

Senreco was formulated to meet this requirement. Hundreds of dentists are prescribing and using Senreco because they have found that it does measure up to that standard

SENRECO IS A WONDERFUL CLEANSER.

In addition to its remedial properties Senreco is a wonderful cleanser: acts directly on the mucin film, the basis of tartar; leaves the mouth cool and clean-feeling. As some one has expressed it-Senreco gives one a new idea on mouth cleanliness.

Get a tube to-day at your druggists or toilet counter-enjoy the healthy. cleanly feeling its use gives your mouth and gums. Notice how brilliantly white Senreco makes your teeth. It performs this two-fold service for you and yet costs no more than the ordinary, old-fashioned tooth paste that simply cleans the teeth and leaves a pleasant taste-25 cents for a large. 2 ounce tube.

Brother, You Don't Want to Be a Slacker, Do You?

DO YOU know what a "curtain of fire" is? It is when the enemy brings up thousands of pieces of artillery, great cannon firing shells as large as a man's body, one of which exploding among five hundred men could kill them all—other smaller guns firing shrapnel, with millions of bullets scarcely less destructive—hundreds of thousands of shells, all exploding along a certain line until there is a real wall of explosion, a wall of death to be passed.

And our boys are going in—in where they use curtains of fire as you use matches—going in with high hearts and a laugh—and our boys will go through—some of them.

Brother, you can't go with them. You are too old, or you have too many dependent on you, or you can't pass the examination, or you are needed in your present work to keep the wheels. of business moving at home.

But there is something you CAN do, and MUST do, something that everyone of us MUST do, and that is subscribe to the Liberty Loan. The nation must have \$2,000,000,000, NOW. There are bonds of \$50, \$100, \$500, and upwards. They pay 312% and are the safest investment that has ever been known. They are a first mortgage on the wealth of the United States, now the greatest wealth of the world. It's like buying a ten dollar mortgage on a million dollar bank building.

It is only common sense to put your money in them—but you must WAKE up to it. The Liberty Loan MUST be subscribed by June 15th. Your subscription is NEEDED NOW.

when our boys abroad are called on to go through a curtain of fire, there will be no hanging back—they'll go IN—in spite of every one's knowing that only some of them will go THROUGH alive. And they'll laugh, and sing "There'll Be a Hot Time in the Old Town Tonight" just as they did at Santiago, because that's the kind of stuff that's in them.

What kind of stuff is there in you, brother? We want you to zo in NOW. The nation needs your help—very badly—Are you going to hang back? We don't believe you would knowingly be a slacker. You'll do your bit if you know about it. And you know about it now, and the call has come the nation needs you to do your bit today.

What Will You Say?

In a day or two days or three days people will begin to ask you. "Have you subscribed to the Liberty Loan yet?"

And any real American with the stuff in him that is American stuff will and can say, "You betcha! Yes, sir! You betcha!"

This is an enormous War Loan issue. Two billions, \$2,000,000,000, is needed now — immediately. The banks have subscribed liberally. But the people must take the bulk of this loan. The bank's money must be used, as always, to support merchants, factories, farmers, so that crops can be raised, food stuffs prepared for market, and all business go on as usual.

You Want Your Job, Dôn't You?

Brother, you don't want business depression, we know. You don't

want factories closed down, shops closed up, men out of work, old people and little children without enough to eat—the very poor starving. We know you don't, but you haven't realized the danger yet. But we are at war. AT WAR—and dangers go hand in hand with war and cannot be separated from it.

And, if you do your part, if you make a real sacrifice and subscribe to as much of the Liberty Loan as you can stagger under, if you rally shoulder to shoulder with the ten million regular Americans who MUST buy these bonds, in a few months' time you will see a further flood tide of prosperity as that \$2,000,000,000 is spent ON TOP of our present active business and this community, and every worker in it will share in the business victory you have helped to win.

How To Do It

Go to your bank or some bond broker and subscribe. You can purshase a bomi on the government installment plan. Your first payment need be only 25 of the whole and the balance in four payments up to August 30. If you buy a \$100 bond Mour first payment need be only \$2. If you don't happen to have ready eash for a \$50 or \$100 bond, ask any Aurora bank for details of their laberty Loan Partial Payment Plan, the bond to be paid for in small weekly installments over a period of 40 or more weeks. Or, go to your employer and subscribe through him on the installment basis, payments to be deducted from your regular wage envelope.

Subscriptions will be received in amounts of \$50, \$100, to \$1,000 and upward.

There is no excuse for your NOT doing your bit-and every one will know it.

Do your bit NOW. Subscribe to a Liberty Bond
before the day is over. And
when anyone asks you,
show him the receipt from
your bank or boss and grin,
and say "You betcha,
friend! You betcha," like
a regular American who
did not wait until the last
day or until he was nagged
into it, but who VOLUNTEERED — who didn't
hang back a minute when
his country called.

BENNY LEONARD

Conqueror of Freddie Welsh Can Fight at the Recognized Weight, 133 Pounds.

FORMER CHAMPS RECALLED

(By Jack Velock).

New York, June . 7 .- Renny Leonard. new king of the lightweights, is the eighth champion of his class with a clear title

Best of all, Leonard is a legitimate lightweight, and no one can guinsay his claim, for he knocked Fred Weish out after entering the ring at 122 pounds.

It is a pleasure to register Benny Leonard as king of the lightweights, for he is every inch a champion-and a champion with a knockout punch. He punched his way to the lightweight throne over strong opposition, and when his chance came he won his title cleanly.

Back in the early '80's the little fellows of the ring began to come into prominence when such battlers as Jack McAultife. George Pulljames, Billy Frazer and Harry Gilmore attracted attention fighting between 128 and 123 pounds. In England there was no recognized dightweight chainpion previous to the '70's, the many box-The first American lightweight charn-

About the same time Bill Edwards and Artie Chambers claimed the laurels in this country Edwards was smatched with Collyer and defeated him. after which Chambers met and defeated Edwards, winning on a foul in 15 rounds.

In 1884 Chambers rettred from the game and Jack Dempsey won recognition as king of the legitimate lightweights of the day. Dempsey, however, grew heavy in a short time and passed out of the lightweight class when Jack McAuliffe anmounced himself as king of the lights and defended his crown against all comers uptil 1893, when he followed in the footsteps of several of his predecessors and
